

DATA SHEET

TAPGAD

**TAPE, POLYESTER FILM / GLASS FILAMENT
TAPE RUBBER ADHESIVE
TYPE - 780**

DESCRIPTION

780 – Polyester film. Glass filament tape – thermosetting rubber.

FEATURES / BENEFITS

USES:

These products have high tensile strength, engineered for holding applications in coil manufacturing.

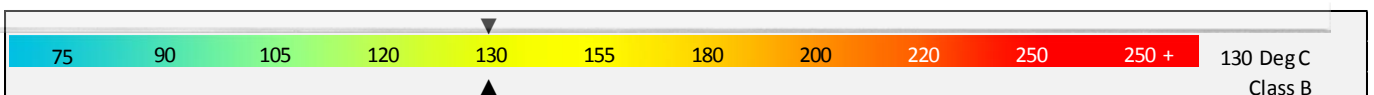

Has excellent solvent resistance and thermosetting qualities aggressive high adhesion, non flagging rubber adhesive.

PHYSICAL PRIOPERTIES

Adhesion	48 oz./in.
Dielectric	4800 Volts
Thickness	.0075 in.
Tensile	225 1lbs./in.
Insulation Class	130°C
